

ECCOCI FINALMENTE ALLA PUBBLICAZIONE DEI LAVORI DEI GRUPPI DI 3°

IN PRIMA POSIZIONE TROVIAMO I LAVORI DEI GRUPPI 4 E 2, CHE SI SONO DISTINTI PER MAGGIOR COMPLETEZZA E CORRETTEZZA.

Gruppo 4: Fiore Alex, Gemo Nicola, Calgaro Elia

In our opinion , in the future schools will have students' clubs with TV,videogames , a caffè and there will be no exams and there will also be therapy and massage classes :these innovations will decrease students' stress and they will increase their school performances. Another innovation is that there will be personalised study programmes, as students aren't at the same level.We are against " no books just the internet" and "a maximum of ten students per class" because computer screens spoil your eyes and classes of ten students don't allow much socialisation.

Classe 3^A Gruppo n°2 : Docaj –Dal Ceredo –Gonzo

- We have chosen "Voluntary attendance at lessons" as our first item because we think that it will be more pleasant and a lot less stressful to attend school.
- The second item on our list is "No books, just the internet" because we believe that in the future books will disappear and the only alternative will be the internet.
- The third item on our list is "A students' club with TV, video games and a café" because in that way school will be less boring than now.
- The fourth choice is for "Therapy and massage classes" because this will be helpful to many students.
- The fifth item on our list is "Personalised study programmes" because we think that it will be a good opportunity to help students to study and to give them moral support.
- We have chosen "No exams" as our sixth item because students won't be under pressure.
- The seventh item on our list is " A maximum of ten students per class" because every student will be more controlled than now.

IN SECONDA POSIZIONE TROVIAMO I LAVORI DEI GRUPPI 1 E 7, CHE SONO RISULTATI COMUNQUE VALIDI E CORRETTI. Del gruppo 7 non risulta però pervenuto il lavoro.

Gruppo 1. Avdyli Luciano - Baldisserotto Gloria - Calcaterra Martina

Our preference is for "A student club with tv, video games and a caffè" because we think students will enjoy it. The second item on our list is "no exams" because they are stressful. Then, we have chosen "Personalised study programmes" because in that way every student will have good results. The fourth item on our list is "no books, just the internet" because in the future students will use the internet more often than now.

Then we think it is better to have “voluntary attendance at lessons” so students can feel free to come to school or not.

The sixth item on our list is “A maximum of ten students per class,” so it will be easier to follow the lessons.

Our last item is “therapy and massage classes” because they will help students to relax.

IN TERZA POSIZIONE I LAVORI DEI GRUPPI 5, 8 E 9 CHE SONO RISULTATI PIU' SEMPLICI MA SUFFICIENTEMENTE CORRETTI. Il lavoro del gruppo 5 non risulta ancora pervenuto, pertanto non viene pubblicato.

GRUPPO 9

Berto Silvia, Macilotti Arianna, Verlatto Gloria

- No exams

We have chosen this item as our first because we think that in the future there will be no exams because they're too stressful.

- No books, just the internet

In our opinion this will have some disadvantages because it will mean the disappearance of books, which will be replaced by the internet which, however, is more expensive.

- Personalised study programmes

The third item on our list is personalised study programmes because we think that this is an advantage for students, as it will improve their school performance.

- A maximum of ten students per class

Our preference is for a maximum of ten students per class because in this way students will be more attentive.

- Therapy and massage classes

The main advantage of therapy and massage classes will be that every students will be able to relax.

GRUPPO 8 (Biasiolo Michele, Kalemi Gerta, Perego Alessia, Xie Tian)

1- We have chosen "no exams" as our first item because we think that exams are too stressful.

2- We think that in the future we won't use books, but we'll use just the internet because it's more convenient.

3- In our opinion we prefer personalised study programmes because it's easier to learn.

4- We have chosen "therapy and massage classes" as our fourth item because in that way lessons will be relaxing.

5- We have chosen "voluntary attendance" at lessons as our fifth item because this will give students more freedom.

6- We have chosen "a student club with TV, videogames and a caffè" as our sixth item because it will be fun and lessons will be less stressful.

7- We have chosen "a maximum of ten students per class" as our last item because with few pupils there will be more oral tests and we will be constantly tested!

E' ORA LA VOLTA DEL GRUPPO 6

gruppo n 6 componenti : pighi nicole, righetto michele , majumdar morgina

1. No books, just the internet

we think that we'll use the internet at school because it would be more convenient than books , because we won't have to carry our books every day.

2. No exams

we agree with this item because exams are very stressful, and we also think they aren't necessary because we already do tests in class every month.

3. A student club with tv, videogames and a caffè and a therapy and massage classes, our third item was because we want to relax during the break between the lessons then we won't be tired

4. A maximum of ten students per class

we don't agree with this item because classes with ten students are more boring than a class with 20 students

5. Voluntary attendance at lessons

we think that's a great idea because students will be able to go to school when they want and if they don't want to they can stay at home

6. Personalised study programmes

we agree with this item because study programmes should adapt to student's needs

E INFINE, IL LAVORO DEL GRUPPO 3

GRUPPO NUMERO 3 Fuser Marco Pellizzari Daniele Effah Amoateng

- Our preference is for the item "no exams" because taking exams is stressful.
- Our second preference is for the item "no books", we think we'll only use the Internet because it is cheaper than books for students.
- We've chosen "personalised study programmes" as our third item, because it will be easier to study at home.
- We are against classes with a maximum of ten students because there will be too many oral tests.
- We agree that there will be voluntary attendance at lessons because in that way there will be more choices and some students prefer some lessons rather than others.
- We'd like a student club with TV, video games and a caffè because it will encourage students to come to school and it will be fun.
